

PREFACE

Citation to the Pinal County Development Services Code: This code should be cited as PCDSC; i.e., “see PCDSC 3.05.010.” A PCDSC title should be cited PCDSC Title 3. A PCDSC chapter should be cited Chapter 3.05 PCDSC. A PCDSC section should be cited PCDSC 3.05.010. Through references should be made as PCDSC 3.05.010 through 3.05.040. Series of sections should be cited as PCDSC 3.05.010, 3.05.020, and 3.05.030.

Numbering system: The number of each section of this code consists of three parts, in sequence as follows: Number of title; number of chapter within the title; number of section within the chapter. Thus PCDSC 3.05.020 is Title 3, Chapter 5, Section 20. The section part of the number (.020) initially consists of three digits. This provides a facility for numbering new sections to be inserted between existing sections already consecutively numbered. In most chapters of the PCDSC, sections have been numbered by tens (.010, .020, .030, .040, etc.), leaving nine vacant numbers between original sections so that for a time new sections may be inserted without extension of the section number beyond three digits.

Legislation: The legislative source of most sections is enclosed in brackets at the end of the section. References to ordinances and resolutions are abbreviated; thus “[Ord. 61862 § 101; Res. 11602-ROT § 1].” refers to Section 101 of Ordinance No. 61862 and Section 1 of Resolution No. 11602-ROT. “Formerly” followed by a PCDSC citation preserves the record of original codification. A semicolon between ordinance citations indicates an amendment of the earlier section.

Codification tables: To convert an ordinance citation to its PCDSC number consult the codification tables. The parenthetical information at the end of each ordinance entry indicates where the ordinance has been codified. Ordinances designated as “Special,” “Repealed,” or “Not Codified” do not appear in the code.

Index: A complete subject matter index is included for PCDSC Titles 1 through 12. The index includes complete cross-referencing and is keyed to the section numbers described above.

Errors or omissions: Although considerable care has been used in the production of this code, it is inevitable in so large a work that there will be errors. As users of this code detect such errors, it is requested that a note citing the section involved and the nature of the error be e-mailed to: CPC@codepublishing.com, so that correction may be made in a subsequent update.

Computer access: Code Publishing Company supports a variety of electronic formats for searching, extracting, and printing code text; please call the publisher for more information.
