10.04.010 Short title

This title (CVMC Title 10) shall be known and may be cited as the “traffic code.” (Ord. 2670, 1996; Ord. 973 § 1, 1966; prior code § 19.1.1).

10.04.020 Intent and purpose of provisions.

A. It is the purpose and intent of the City Council in adopting this title to provide a convenient compilation of the rules and regulations governing and controlling the movement of motor vehicles and traffic in Chula Vista. These rules and regulations are further intended to supplement the regulations contained in the Vehicle Code of the state of California in those instances where the subject matter is not covered by state traffic laws, and to adopt local regulations where express power is granted to local authorities to control particular subject matter. It is the purpose of this title to provide standards and guidelines for the administration of motor vehicles and traffic regulations for those departments charged with such responsibility in the City. Certain definitions and regulations contained herein incorporate the exact language of the Vehicle Code of the state of California and should be cited with reference to the code sections of the Vehicle Code as indicated. If any definitions or regulations are not contained herein, or if definitions or regulations contained herein are inconsistent with the Vehicle Code, such definitions or regulations as found in the Vehicle Code as it exists or as it may be amended shall apply.

B. It is further the purpose and intent of the City Council by enacting Ordinance 2670, which amends CVMC Title 10 to delegate to the City Engineer the responsibility and authority to adopt and promulgate traffic and parking control measures pursuant to the standards promulgated by the California Vehicle Code and the California Depart-

ment of Transportation (Caltrans) Traffic Manual, with the concurrence of the Safety Commission, that such enactment and process constitute the enactment of an ordinance or resolution when required by the language of certain sections within Division 11 of the California Vehicle Code, through which traffic and parking control is to be exercised and effected within the jurisdictional limits of the City of Chula Vista.

C. It is further the intent of the City Council, and it is hereby so authorized, that the City Engineer, upon the concurrence of the Safety Commission pursuant to CVMC 10.04.030, shall have the power and authority to adopt, amend, alter or modify any regulation, as defined by CVMC 10.08.195, which creates or establishes a traffic or parking control measure. Where a traffic or parking control measure has been previously adopted by ordinance or resolution of the City Council, that regulation may be hereafter modified or abrogated by the City Engineer pursuant to the process outlined in CVMC 10.04.030. (Ord. 2670, 1996; Ord. 973 § 1, 1966; prior code § 19.1.2).

10.04.030 Regulation and maintenance of schedules of streets and zones subject to regulatory provisions.

A. Subject to subsection (G) of this section, the City Council, at the concurrence of the City Manager, hereby delegates the authority and responsibility to establish and maintain vehicular and pedestrian traffic and parking control measures, standards and requirements in the public right-of-way to the City Engineer after review by the Safety Commission, unless, on affirmative vote of the majority of the membership of the Safety Commission, the Commission objects to the proposed action by the City Engineer, in which case the matter shall be referred to the City Council, and the authority as to such matters shall thereafter be revested in the City Council to be exercised upon the affirmative vote of at least three members of the City Council.

B. The Safety Commission may not initiate or order the implementation of a traffic control measure, but may recommend to the City Engineer the consideration of a proposed traffic or parking control measure. If the City Engineer declines to implement a traffic or parking control measure recommended by the Safety Commission, the Safety Commission may refer the matter to the City Council, and following such referral, the authority to implement or order the particular traffic safety

measure recommended by the Safety Commission shall be vested in the City Council.

C. The Safety Commission shall utilize the standards and procedures established in the California Vehicle Code and the State of California (Caltrans) Traffic Manual in its deliberations and recommendations, but may base its recommendations to the City Engineer, or City Council when applicable, upon other matters of public policy affecting traffic safety.

D. The City Engineer shall exercise the responsibility and authority hereby delegated for the determination, design, administration and enforcement of traffic and parking control measures and installation of devices consistent with the standards and warrants contained in the latest effective edition of the State of California Traffic Manual as amended, a copy of which is on file in the office of the City Engineer. The City Engineer shall promptly file any amendments to or later editions of the State of California (Caltrans) Traffic Manual or successor manuals promulgated by the state of California pursuant to the authority of the California Vehicle Code and, upon filing, those standards will become applicable to the determinations and regulations adopted by the City Engineer.

E. Except as provided in CVMC 10.52.070, no traffic control measure or parking control measure shall be enforceable, nor shall a violation be punishable, until an appropriate traffic control device or parking control device meeting the standards prescribed in subsection (D) of this section is posted or installed. Posting or installation shall be prima facie evidence of the legality of any traffic control measure or parking control measure adopted under this title.

F. Administration and maintenance of records by the City Engineer shall be as follows:

1. The City Engineer shall maintain all regulations under this title and provide the Chief of Police copies of all administrative interpretations and determinations made pursuant to this section which govern the installation and administration of traffic control measures and parking control measures in the City of Chula Vista.

2. The City Engineer shall maintain a register of all schedules which establish parking and traffic control measures for streets within the City, and shall incorporate into those schedules the streets, zones and intersections and restrictions or limitations previously listed in Schedules I through XVI as were previously codified in this title prior to their repeal by Ordinance 2670. The repeal or amendment of those sections by Ordinance 2670 is

intended to merely delete reference to the street designations within the text of the municipal code. Parking and traffic control measures upon those streets, zones and intersections shall be administered by the City Engineer pursuant to this section.

G. Exceptions. The City Council reserves the right to enact ordinances and resolutions, and the City Engineer shall make recommendations to the Council, as appropriate, on the following matters:

6. Establishment of parking meter zones and parking fees pursuant to Vehicle Code Section 22508.

7. Establishment of speed limits pursuant to California Vehicle Code Sections 22357 and 22358.

1. Road Construction. The authority to establish and maintain traffic control measures for road construction events shall be vested solely in the City Engineer, unless overruled by the affirmative vote of three members of the City Council. Referral to and concurrence of the Safety Commission are not required. The City Engineer shall, under the following circumstances, advise the Council a minimum of seven days in advance in writing of the following proposed traffic control measures exercised under the authority of this subsection:

B. Administrative Remedy. Any person who contends that a traffic or parking control measure or device was not promulgated or installed according to the regulations contained in this title or the California Vehicle Code may petition the Safety Commission to examine the matter, and may appeal that determination to the City Council within 10 days following. - 10.30.030 Spectator at illegal speed contest or exhibitions of speed – Violation.
- 10.30.040 Enforcement procedure.
- 10.30.050 Penalties.

10.30.010 Purpose.

A. The council for the city of Chula Vista finds and declares that pursuant to California Vehicle Code Section 23109, motor vehicle speed contests and exhibitions of speed conducted on public streets and highways are illegal.

B. Motor vehicle speed contests and exhibitions of speed are more commonly known as street races or drag races. Streets within the city of Chula Vista have been the site of continuing and escalating illegal street racing over the past several years.

C. Such street racing threatens the health and safety of the public, interferes with pedestrian and vehicular traffic, creates a public nuisance, and interferes with the right of private business owners to enjoy the use of their property within the city of Chula Vista.

D. In the past five years, the city of Chula Vista has experienced 11 collisions with vehicles involved in street racing. Those collisions claimed the lives of 14 community members.

E. The illegal street races occur on a regular basis on various streets within the county of San Diego as well as in Chula Vista. Specifically, racers and spectators gather on these streets late at night and in the early morning hours, blocking the streets and sidewalks to traffic, forming a racetrack area, placing bets, and otherwise encouraging, aiding and abetting the racing process.

F. Illegal street racers accelerate to high speeds without regard to oncoming traffic, pedestrians, or vehicles parked or moving nearby. The racers drive quickly from street to street, race for several hours, and then move to other locations upon the arrival of the police.

G. Those who participate in this illegal activity are very sophisticated, using their cell phones, police scanners, and other electronic devices to communicate with each other to avoid arrest. They also use the Internet to provide information on where to race, and give advice on how to avoid detection and prosecution. Traffic accidents, prop-

erty crimes, and calls for police service have increased dramatically. In some cases, illegal street races attract hundreds of spectators.

H. The mere presence of spectators at these events fuels the illegal street racing and creates an environment in which these illegal activities can flourish.

I. This chapter targets a very clear, limited population and gives proper notice to individuals as to what activities are lawful and what activities are unlawful. In discouraging spectators, the act of organizing and participating in illegal street races will be discouraged. (Ord. 2894 § 1, 2003).

Any such authorized person may enter upon private property for the purposes specified in this section to examine a vehicle, and remove or cause to be removed the vehicle declared to be a nuisance pursuant to this chapter. (Ord. 2718 § 1, 1998; Ord. 2670 § 1, 1996; Ord. 2668 § 1, 1996; Ord. 1338 § 1, 1971; prior code § 19.2305).

10.80.060 Abatement – Costs – Procedure generally – Notices required.

Any vehicle located on property other than a highway may be removed as a public nuisance and disposed of in accordance with the following procedures:

A. Not less than 10 days prior to any removal or disposal of a vehicle, a notice of intention to abate and remove the vehicle as a public nuisance shall be issued, unless the property owner and the owner of the vehicle have signed releases authorizing removal and waiving further interest in the vehicle. The notice shall contain a statement of the hearing rights of the owner of the vehicle and of the owner of the property on which the vehicle is located. The statement shall include notice to the property owner that he may appear in person at a hearing or may submit a sworn statement denying responsibility for the presence of the vehicle on the land, with his reason for such denial, in lieu of appearing. The notice of intention to abate shall be mailed, by registered or certified mail, to the owner of the land as shown on the last equalized assessment roll and to the last registered and legal owners of record unless the vehicle is in such condition that identification numbers are not available to determine ownership.

B. The cost of removal and disposal of any vehicle and the administrative cost thereof may be charged against the person who is determined to be responsible for the maintenance of the vehicle as a public nuisance.

C. The vehicle may be disposed of by removal to a scrapyard, automobile dismantler's yard or any suitable site for processing as scrap. (Ord. 2718 § 1, 1998; Ord. 2670 § 1, 1996; Ord. 2668 § 1, 1996; Ord. 1338 § 1, 1971; prior code § 19.2306).

10.80.070 Abatement – Public hearing required when – Notice – Manager or his or her designee authority.

A. Upon request by the owner of the vehicle or the owner of the land on which the vehicle is located, a public hearing shall be held before the city manager or designee. This request shall be made to the manager or his designee within 10 days after the mailing of the notice of intention to abate and remove the vehicle.

B. The owner of the land on which the vehicle is located may appear in person at the hearing. Instead of making an appearance, he may present a sworn written statement, in time for consideration at the hearing, denying responsibility for the presence of the vehicle on the land, with his reasons for his denial. This statement shall be construed as a request for a hearing which does not require the presence of the owner submitting the request. If it is determined at the hearing that the vehicle was placed on the land without the consent of the landowner and that he has not subsequently acquiesced

in its presence, then the costs of administration or removal of the vehicle shall not be assessed against the property upon which the vehicle is located or collected from the landowner. (Ord. 2718 § 1, 1998; Ord. 2670 § 1, 1996; Ord. 2668 § 1, 1996; Ord. 1338 § 1, 1971; prior code § 19.2307(A)).

After a vehicle has been removed, it shall not thereafter be reconstructed or made operable. (Ord. 2718 § 1, 1998; Ord. 2670 § 1, 1996; Ord. 2668 § 1, 1996; Ord. 1338 § 1, 1971; prior code § 19.2307(B)(2)).

10.80.100 Notification and transfer of evidence required when.

Within five days after the date of removal of the vehicle or parts thereof, notice shall be given to the Department of Motor Vehicles identifying the vehicle or parts thereof removed. At the same time there shall be transmitted to the Department of Motor Vehicles any evidence of registration available, including registration certificates, certificates of title and license plates. Any licensed dismantler or commercial enterprise acquiring vehicles removed pursuant to this section shall be excused from the reporting requirements of Section 11520 of the California Vehicle Code; and any fees and penalties which would otherwise be due to the Department of Motor Vehicles are hereby waived; provided, that a copy of the resolution or order authorizing disposition of the vehicle is retained in the dismantler's or commercial enterprise's business records.
