**64.04.005 Liquidated damages—Earnest money deposit—Exclusive remedy—Definition.**

(1) A provision in a written agreement for the purchase and sale of real estate which provides for liquidated damages or the forfeiture of an earnest money deposit to the seller as the seller's sole and exclusive remedy if a party fails, without legal excuse, to complete the purchase, is valid and enforceable, regardless of whether the other party incurs any actual damages. However, the amount of liquidated damages or amount of earnest money to be forfeited under this subsection may not exceed five percent of the purchase price.

(2) For purposes of this section:

(a) "Earnest money deposit" means any deposit, deposits, payment, or payments of a part of the purchase price for the property, made in the form of cash, check, promissory note, or other things of value for the purpose of binding the purchaser to the agreement and identified in the agreement as an earnest money deposit, and does not include other deposits or payments made by the purchaser; and

(b) "Liquidated damages" means an amount agreed by the parties as the amount of damages to be recovered for a breach of the agreement by the other and identified in the agreement as liquidated damages, and does not include other deposits or payments made by the purchaser.

(3) This section does not prohibit, or supersede the common law with respect to, liquidated damages or earnest money forfeiture provisions in excess of five percent of the purchase price. A liquidated damages or earnest money forfeiture provision not meeting the requirements of subsection (1) of this section shall be interpreted and enforced without regard to this statute. **64.04.150 Solar easements—Definitions.**

(1) As used in this chapter:

(a) "Solar energy system" means any device or combination of devices or elements which rely upon direct sunlight as an energy source, including but not limited to any substance or device which collects sunlight for use in:

- (i) The heating or cooling of a structure or building;
- (ii) The heating or pumping of water;
- (iii) Industrial, commercial, or agricultural processes; or

A solar energy system may be used for purposes in addition to the collection of solar energy. These uses include, but are not limited to, serving as a structural member or part of a roof of a building or structure and serving as a window or wall; and

(b) "Solar easement" means a right, expressed as an easement, restriction, covenant, or condition contained in any deed, contract, or other written instrument executed by or on behalf of any landowner for the purpose of assuring adequate access to direct sunlight for solar energy systems.

(2) A solar easement is an interest in real property, and shall be created in writing and shall be subject to the same conveying and instrument recording requirements as other easements.

(3) A solar easement shall be appurtenant and run with the land or lands benefited and burdened, unless otherwise provided in the easement.

(4) Any instrument creating a solar easement shall include but not be limited to:

(a) A description of the real property subject to the solar easement and a description of the real property benefiting from the solar easement; and

(b) A description of the extent of the solar easement which is sufficiently certain to allow the owner of the real property subject to the easement to ascertain the extent of the easement. Such description may be made by describing the vertical and horizontal angles, expressed in degrees, at which the solar easement extends over the real property subject to the easement and the points from which those angles are to be measured, or the height over the property above which the solar easement extends, or a prohibited shadow pattern, or any other reasonably certain description.

(5) Any instrument creating a solar easement may include:

(a) The terms or conditions or both under which the solar easement is granted or will be terminated; and

(b) Any provisions for compensation to the owner of property benefiting from the solar easement in the event of interference with the enjoyment of the solar easement, or compensation to the owner of the property subject to the solar easement for maintaining the solar easement. [1979 ex.s. c 170 § 12.]

**64.04.160 Solar easements—Creation.**

**NOTES:**

**Severability—1979 ex.s. c 170:** See note following RCW 64.04.140.

**64.04.170 Interference with solar easement—Remedies.**

In any action for interference with a solar easement, if the instrument creating the easement does not specify any appropriate and applicable remedies, the court may choose one or more remedies including but not limited to the following:

(1) Actual damages as measured by increased charges for supplemental energy, the capital cost of the solar energy system, and/or the cost of additional equipment necessary to supply sufficient energy:

(a) From the time the interference began until the actual or expected cessation of the interference; or

(b) If the interference is not expected to cease, in a lump sum which represents the present value of the damages from the time the interference began until the normally expected end of the useful life of the equipment which was interfered with;

(2) Reasonable and necessary attorney's fees as fixed by the court; and

(3) An injunction against the interference. [1979 ex.s. c 170 § 13.]

**64.04.175 Easements established by dedication—Extinguishing or altering.**

Easements established by a dedication are property rights that cannot be extinguished or altered without the approval of the easement owner or owners, unless the plat or other document creating the dedicated easement provides for an alternative method or methods to extinguish or alter the easement. [1991 c 132 § 1.]

**64.04.180 Railroad properties as public utility and transportation corridors—Declaration of availability for public use—Acquisition of reversionary interest.**

Railroad properties, including but not limited to rights-of-way, land held in fee and used for railroad operations, bridges, tunnels, and other facilities, are declared to be suitable for public use upon cessation of railroad operations on the properties. It is in the public interest of the state of Washington that such properties retain their character as public utility and transporta-

tion corridors, and that they may be made available for public uses including highways, other forms of mass transportation, conservation, energy production or transmission, or recreation. Nothing in this section or in RCW 64.04.190 authorizes a public agency or utility to acquire reversionary interests in public utility and transportation corridors without payment of just compensation. [1988 c 16 § 1; 1984 c 143 § 22.]

**64.04.190 Public utility and transportation corridors—Defined.**

Public utility and transportation corridors are railroad properties (1) on which railroad operations have ceased; (2) that have been found suitable for public use by an order of the Interstate Commerce Commission of the United States; and (3) that have been acquired by purchase, lease, donation, exchange, or other agreement by the state, one of its political subdivisions, or a public utility. [1988 c 16 § 2; 1984 c 143 § 23.]
