1. PERMIT FEES

(a) Building Permits—The fees shall be as set forth in Table No. 3-A of the currently adopted edition of the Uniform Building Code, except for hourly service rates, which are set forth in paragraph D.2. below. The value to be used in computing the building permit and building plan-review fees shall be the total value of all construction work for which the permit is issued, as well as all finish work, painting, roofing, electrical, plumbing, heating, air conditioning, elevators, fire extinguishing systems and any other permanent equipment. Valuation shall be based upon the Building Valuation Data published in the most recent edition of Building Standards, a publication of the International Conference of Building Officials (ICBO).

(b) Plan Review—When plans or other data are required to be submitted, a plan review fee shall be paid at the time of submitting plans and specifications for review. The plan fee shall be as set forth in the currently adopted edition of the Building Code, Chapter 3, except for hourly service rates, which shall be as set forth in paragraph D.2. below.

(c) Plumbing—The fees shall be as set forth in the currently adopted edition of the Uniform Plumbing Code, Chapter 3, under Table No. 3-A, except for hourly service rates, which shall be as set forth in paragraph D.2. below.

(d) Electrical—The fees shall be as set forth in the currently adopted edition of the Uniform Administrative Code provisions for the National Electrical Code, Chapter 3, Table No. 3-A, except for hourly service rates, which shall be as set forth in paragraph D.2. below.

(e) Mechanical—The fees shall be as set forth in the currently adopted edition of the Uniform Mechanical Code, Chapter 3, under Table No. 3-A, except for service rates, which shall be as set forth in paragraph D.2. below.

2. SUPPLEMENTAL FEES

In addition to fees charged in conformance with subsection 1 above, supplemental fees shall be charged for the permits indicated below. Solano County encompasses a large geographical area and a significantly higher percentage of Building Inspector time that is anticipated in the Uniform Building Code (UBC) schedule of fees is spent in travel between inspection stops.

Supplemental fees are calculated on the average number of inspection visits per permit, the average time in travel (less that built into the UBC Fee Table), and the cost per hour of service. The hourly rates for services shall be computed based upon the approved budget of the Department of Environmental Management, Building and Safety Division, and not the hourly rates found in Table No. 3-A of the respective codes.

Assuming travel time for Solano County Inspectors averages 45 minutes, and five minutes per trip are assumed by the UBC, the net travel time is 40 minutes, or .67 hours. The
computed hourly cost derived from the approved departmental budget, times .67 hours, times the
number of inspection visits yields the supplemental fee for the particular permit.

Supplemental fees shall be amended each year upon the adoption by the
Board of Supervisors of an approved County budget.
