ORDINANCE No. 183
Solano County
ZONING PROCEDURE ORDINANCE

AN ORDINANCE OF THE COUNTY OF SOLANO, STATE OF CALIFORNIA, PRESCRIBING THE PROCEDURE WHICH SHALL GOVERN IN CONNECTION WITH ANY ZONING PLAN OR PART THEREOF WHICH MAY BE ADOPTED FOR ANY PORTION OF THE UNINCORPORATED TERRITORY OF SAID COUNTY AND IN CONNECTION WITH ANY ORDINANCE RELATING THERETO.

The Board of Supervisors of the County of Solano, State of California, do ordain as follows:

SECTION 1.

The procedure prescribed in this ordinance shall govern in connection with any zoning plan or part thereof which may be adopted for any portion of the unincorporated territory of the County of Solano, State of California, and in connection with any ordinance relating thereto. The term "zoning ordinance" as used in this ordinance shall mean any ordinance adopting any such zoning plan or part thereof or any ordinance relating thereto.

SECTION 2. EFFECT OF ESTABLISHMENT OF DISTRICTS

In any district established by any zoning ordinance, and except as otherwise provided by such ordinance:

(a) No building shall be erected, reconstructed, structurally altered, added to, enlarged or moved nor shall any land, building or premises be used, designed or intended to be used for any purpose or in manner other than is included among the uses listed in such zoning ordinance as permitted in such district.

(b) No building shall be erected, reconstructed or structurally altered to exceed in height the limit designated in such zoning ordinance for such district.

(c) No building shall be erected, nor shall any existing building be altered, added to, enlarged or rebuilt, nor shall any open spaces surrounding any building be encroached upon or reduced in any manner, except in conformity to the yard, building site area and building location regulations designated in such zoning ordinance for such district.

(d) No yard or other open space provided about any building for the purpose of complying with the provisions of any zoning ordinance shall be considered as providing a yard or open space for any other building, and no yard or other open space on one lot shall be considered as providing a yard or open space for a building on any other lot.

SECTION 3. DISTRICT BOUNDARIES

Where uncertainty exists as to the boundaries of any district established by any zoning ordinance, the following rules shall apply:

(a) Where such boundaries are indicated as approximately following street and alley lines, such street and alley lines shall be construed to be such boundaries.

(b) Where such boundaries are indicated as approximately following lot lines, such lot lines shall be constructed to be such boundaries.

(c) In unsubdivided property or where a district boundary divides a lot, the location of any such boundary, unless the same is indicated by dimensions shown on a map designating such boundary, shall be determined by the use of the scale appearing on such map.
(d) In case further uncertainty exists, the Planning Commission, upon written application or upon its own motion, shall determine the location of such boundaries.

SECTION 4. NON-CONFORMING USES

Except as otherwise provided in this section, the lawful use of land existing at the time of the adoption of this ordinance, although such use does not conform to the regulations specified by this ordinance for the district in which such land is located, may be continued, provided, however, that no such non-conforming use shall be enlarged or increased, nor shall any such non-conforming use be extended to occupy a greater area of land than that occupied by such use at the time of the adoption of this ordinance, nor shall any such non-conforming use be moved in whole or in part to any other portion of the lot or parcel of land occupied by such non-conforming use at the time of the adoption of this ordinance; provided, however, that if any such non-conforming use of land ceases for any period of time whatever for any reason whatever, any subsequent use of such land shall be in conformity to the regulations specified by this ordinance for the district in which such land is located.

Except as otherwise provided in this section, the lawful use of a building existing at the time of the adoption of this ordinance, although such use does not conform to the regulations specified by this ordinance for the district in which such building is located, may be continued and may be extended throughout the building provided no structural alterations except those required by law or ordinance are made therein, but no such use shall be extended to occupy any land outside such building. If no structural alterations are made, a non-conforming use of a building may be changed to another non-conforming use of the same or of a more restricted nature. If any non-conforming building is hereafter removed, the subsequent use of the land on which such building was located shall be in conformity with the regulations of this ordinance.

No existing building designed, arranged or intended for or devoted to a use not permitted under the regulations specified by this ordinance for the district in which such building is located shall be enlarged, extended, reconstructed, structurally altered or moved unless such use is changed to a use permitted under the regulations specified by this ordinance for such district in which the building is located or for such district to which such building is moved.

The foregoing provisions shall also apply to non-conforming uses in districts hereafter changed.

Nothing in this ordinance shall be deemed to prevent the restoration of a non-conforming building destroyed by any means to the extent of not more than seventy-five (75) per cent of its reasonable value, nor the continued occupancy or use of such building or part thereof which existed at the time of such partial destruction; provided, however, that where a building is destroyed to such an extent that its total demolition is required by the provisions of any ordinance of County of Solano, any future building or use shall conform to the regulations of this ordinance.

Nothing contained in this ordinance shall be deemed to require any change in the plans, construction or designated use of any building upon which actual construction was lawfully begun prior to the adoption of this ordinance and upon which building actual construction has been diligently carried on. Actual construction is hereby defined to be the
actual placing of construction materials in their permanent position fastened in a permanent manner; except that where a basement is being excavated, such excavating shall be deemed to be actual construction; or where demolition or removal of an existing structure has been begun preparatory to rebuilding, such demolition and removal shall be deemed to be actual construction; provided that in all cases actual construction work shall be diligently carried on until the completion of the building or structure involved.

Any use for which a use permit is required, or for which a use permit may be granted, as provided in this ordinance, which use is existing at the time of the adoption of this ordinance in any district in which such use is specifically permitted subject to the securing of a use permit, shall without further action be deemed to be a conforming use in such district. Regardless of any other provision of this ordinance any junk yard which exists as a non-conforming use in any dwelling district shall be removed or changed to a conforming use within a period of one (1) year after the date of passage of this ordinance. Regardless of any other provision of this ordinance any junk yard which exists as a non-conforming use in any district other than a dwelling district shall, within one year after the date of passage of this ordinance, be either removed, changed to a conforming use or be completely enclosed within a building or within a continuous solid fence not less than eight feet in height and in any case of such height as to screen completely all the operations of such junk yard, of which building or fence the plans shall first have been approved by the Planning Commission.

SECTION 5. BUILDING PERMITS AND PLANS

Building permits, as provided in this section, shall be required for all buildings and structures, as hereinafter specified, except fences, hereafter erected, constructed, altered, repaired or moved within or into any district established by any zoning ordinance unless otherwise specifically provided in such zoning ordinance.

No building or structure having an aggregate value in excess of Fifty (50) Dollars, and no building or structure designed or intended to be used for any commercial or industrial purpose (except an accessory building having an aggregate value of less than Fifty (50) Dollars) shall hereafter be erected or constructed in any district established by any zoning ordinance unless and until a permit therefor shall first have been secured from the Planning Commission or from such officer or employee thereof as said Commission may designate for such purpose. No repairs or alterations of an aggregate value in excess of Fifty (50) Dollars and no repairs or alterations which would change the character of any building or structure to a commercial or industrial nature (except an accessory building having an aggregate value of less than Fifty (50) Dollars) shall hereafter be made on any building or structure in any district established by any zoning ordinance until a permit therefor shall first have been secured from the Planning Commission or from the aforesaid officer or employee thereof. No building or structure having an aggregate value in excess of Fifty (50) Dollars and no building or structure designed or intended to be used for commercial or industrial purposes (except an accessory building having an aggregate value of less than Fifty (50) Dollars) shall hereafter be moved in or into any district established by any zoning ordinance until a permit for such moving shall first have been secured from the Planning Commission or from the aforesaid officer or employee thereof and also from the County Surveyor.
Every application for any permit required by the provisions of this section shall be accompanied by a drawing or plat, in duplicate, drawn to scale, showing the lot and building site, the proposed location of the building on the lot, accurate dimensions of the building, of the yards and of the lot, and such other information as may be necessary to the enforcement of this ordinance. A careful record of the original copy of such application and plat shall be kept in the office of the Planning Commission and the duplicate copy shall be kept at the building at all times during construction.

SECTION 6. ARCHITECTURAL SUPERVISION

In case an application is made for a permit, as required in Section 5 of this ordinance, for any building, structure or other improvement in any district established by any zoning ordinance and specified therein as coming under the provisions of this section, said application shall be accompanied by drawings or sketches showing the front, side or rear elevations of the proposed building, structure or other improvement, or of the building, structure or other improvement as the same will appear after the work for which the permit is sought shall have been completed. Such drawings or sketches shall be considered by the Planning Commission in an endeavor to provide that such buildings, structures and other improvements shall be so designed and constructed that they will not be of unsightly, undesirable, or obnoxious appearance to the extent that they will hinder the orderly and harmonious development of the County, impair the desirability of residence, investment or occupation in the County as appearing to travelers passing through or traveling in the County, limit the opportunity to attain the optimum use and value of land and improvements, impair the desirability of living conditions in the same or adjacent agricultural or residential areas, or otherwise adversely affect the general prosperity and welfare. To this end, the Planning Commission shall suggest any changes in the plans of such proposed buildings, structures and other improvements which it may deem to be necessary to accomplish the purposes of this section, and shall not approve any such plans until it is satisfied that such purposes will be accomplished thereby. In case the applicant is not satisfied with the action of the Planning Commission, he may, within thirty (30) days after such action, appeal in writing to the Board of Supervisors. Said Board shall hold a hearing on said appeal and shall render its decision thereon within thirty (30) days after the filing thereof. No permit, as provided herein, shall be issued unless the plans filed with the application therefor as required in this section shall first have been approved by the Planning Commission, or such officer or employee thereof as said Commission may designate for such purpose, shall issue such permit, provided all other provisions of law have been complied with. Every drawing or sketch filed under the provisions of this section shall become a part of the permanent records of the Planning Commission.

SECTION 7. CERTIFICATES OF OCCUPANCY

No vacant land which is located in any district established by any zoning ordinance and which is specified in such ordinance as requiring certificates of occupancy shall hereafter be occupied or used, except for agricultural uses, and no building hereafter erected, structurally altered or moved, for which building a permit is required under the provisions of Section 5 of this ordinance, shall be occupied or used until a certificate of occupancy shall have been issued by the Planning Commission or by such officer or employee thereof as the Commission may designate for such purpose.
Application for a certificate of occupancy for a new building or for an existing building which has been altered or moved shall be made at the same time as the application for a permit for such building as required in Section 5 of this ordinance. Said certificate shall be issued within three (3) days after a written request for the same shall have been made to the Planning Commission or to said officer or employee thereof after the alteration or moving of such building or part thereof shall have been completed in conformity with the provisions of this ordinance. Pending the issuance of such a certificate, a temporary certificate of occupancy may be issued by the Planning Commission or by said officer or employee thereof for a period of not exceeding six (6) months during the completion of alterations or during partial occupancy of a building pending its completion. Such temporary certificate shall not be construed in any way altering the respective rights, duties or obligations of the owners or of the County relating to the use or occupancy of the premises or any other matter covered by this ordinance, and such temporary certificate shall not be issued except under such restrictions and provisions as will adequately insure the safety of the occupants.

Written application for a certificate of occupancy for the use of vacant land or for a change in the character of the use of land, as herein required, shall be made before any such land shall be so occupied or used, except for agricultural purposes. Such a certificate of occupancy shall be issued within three (3) days after the application therefor has been made, provided such use is in conformity with the provisions of this ordinance.

Every certificate of occupancy shall state that the building or proposed use of a building or land complies with all provisions of law and of all county ordinances. A record of all certificates of occupancy shall be kept on file in the office of the Planning Commission and copies shall be furnished, on request, to any person having a proprietary or tenancy interest in the building or land affected. No fee shall be charged for a certificate of occupancy.

No permit for excavation for any building shall be issued before application has been made for a certificate of occupancy.

SECTION 8. ADJUSTMENTS, VARIANCES AND APPEALS:

The Planning Commission, subject to the approval and confirmation of the Board of Supervisors in each case, as hereinafter provided, shall have power to recommend adjustments and variances in and to any of the provisions of any zoning ordinance to the extent of the following and no further:

1. To vary or modify the strict application of any of the regulations or provisions contained in such ordinance in cases in which there are practical difficulties or unnecessary hardships in the way of such strict application.

2. To permit the extension of a district where the boundary line thereof divides a lot in one ownership at the time of the passage of such ordinance.

Application for any adjustment of variances permissible under the provisions of this section shall be made to the Planning Commission in the form of a written application for a building permit or for a permit to use the property or premises as set forth in said application and shall set forth all details of the proposed construction or use.
Upon receipt of any such application by the officer or employee of the Planning Commission designated in the rules of the Commission for such purpose, such officer or employee shall set a time and place for a public hearing before the Planning Commission on such application. Such officer or employee shall cause public notice of such public hearing to be given by causing one notice thereof to be published in a newspaper of general circulation in the County at least ten (10) days before the date of said hearing. At said hearing the applicant shall present a statement and adequate evidence, in such form as the Planning Commission may require, showing:

1. That there are special circumstances or conditions applying to the land, building or use referred to in the application.

2. That the granting of the application is necessary for the preservation and enjoyment of substantial property rights.

3. That the granting of the application will not materially adversely affect the health or safety of persons residing or working in the neighborhood of the property of the applicant and will not be materially detrimental to the public welfare or injurious to property or improvements in said neighborhood.

The Commission shall thereupon make its decision on the said application and shall report such decision to the Board of Supervisors within forty-five (45) days after the filing of the application.

In recommending the granting of any adjustment or variance under the provisions of this section, the Planning Commission shall designate such conditions in connection therewith as will, in its opinion, secure substantially the objectives of the regulation or provision to which such adjustment or variance is granted, as to light, air, and the public health, safety, morals, convenience and general welfare. No permit shall be issued under the provisions of this section unless and until a recommendation of the Planning Commission, as aforesaid, approving the same, shall have been approved and confirmed by the Board of Supervisors. In reporting its decision to the Board of Supervisors the Planning Commission shall report its findings with respect thereto and all facts in connection therewith, and shall specifically and fully set forth any adjustment or variances recommended and the conditions designated. Upon receipt of such report, if the decision of the Planning Commission recommended the granting of the application, the Board of Supervisors shall, by resolution, approve said recommendation, whereupon the permit as applied for may issue; or shall refuse to approve such recommendation. In all cases in which adjustments or variances are granted under the provisions of this section, the Board of Supervisors, upon recommendation of the Planning Commission, shall require such evidence and guarantees as it may deem to be necessary that the conditions designated in connection therewith are being and will be complied with.

The Planning Commission shall have power to decide any question involving the interpretation of any provision of any zoning ordinance.

Any person who is dissatisfied with any decision or ruling of the Planning Commission may, within thirty (30) days after the date of such decision or ruling, appeal therefrom in writing to the Board of Supervisors, who shall have power to over-rule such decision or ruling.
SECTION 9. USE PERMITS

Use permits may be issued for any of the following in any district established by any zoning ordinance:

1. Any of the uses or purposes for which such permits are required or permitted by the provisions of any such ordinance.
2. Public utility or public service uses or public buildings when found to be necessary for the public health, safety, convenience or welfare.
3. Commercial excavating of natural materials used for building or construction purposes.
4. To classify as a conforming use any institutional use existing in any such district at the time of the establishment of such district.
5. To permit the location of any of the following uses in a district from which it is excluded by the provisions of any zoning ordinance establishing such district: airport, library, museum, community center, church, hospital, institutions of an educational, philanthropic or charitable nature, riding academy, auto camp, cemetery, crematory, mausoleum; and any other place for the disposal of the human dead.

Such use permits shall be issued under the same procedure as that specified in Section 8 of this ordinance for the granting of adjustments or variances, except that:

1. No public hearing need be held thereon; provided, however, that the Planning Commission may hold such hearings thereon as it may deem to be necessary; and provided, further that a public hearing shall be held on any application for a use permit for the establishment of any use listed in the preceding paragraph numbered "5" of this section.
2. The findings of the Planning Commission, except as otherwise provided in this section, shall include that the establishment, maintenance or conducting of the use for which a use permit is sought will not, under the circumstances of the particular case, be detrimental to the health, safety, morals, comfort, convenience, or general welfare of persons residing or working in the neighborhood of such use or be detrimental to the public welfare or injurious to property or improvements in said neighborhood.
3. Any proceedings to classify certain uses as conforming uses, as provided in this section, may be initiated by the Board of Supervisors or by the Planning Commission, or by petition as hereinbefore provided.

All other provisions of said Section 8, including the designation by the Planning Commission of any conditions upon which an application may be granted and guarantees that such conditions will be complied with, shall apply to the granting of a use permit.

Any use permitted under the terms of any use permit shall be established and conducted in conformity to the terms of such use permit and of any conditions designated in connection therewith.

SECTION 10. AMENDMENTS

Any zoning ordinance may be amended by changing the boundaries of districts or by changing any other provision thereof whenever the public necessity and convenience and the general welfare require such amendment, by following the procedure specified in this section. Said amendment may be initiated by:
(a) The verified petition of one or more owners of property affected by the proposed amendment, which petition shall be filed with the Planning Commission and shall be accompanied by a fee of Twenty-five (25) Dollars, no part of which shall be returnable to the petitioner; or by

(b) Resolution of intention of the Board of Supervisors; or by

(c) Resolution of intention of the Planning Commission.

The Planning Commission, not later than at its next succeeding meeting following the filing of such verified petition or following the adopting of such resolution of intention, shall set the times and places for such public hearings thereon as may be required by law. Such notice shall include notice of the proposed amendment; in case the proposed amendment consists of a change of the boundaries of any district so as to reclassify property from any district to any other district, the Planning Commission shall give additional notice of the time and place of such hearings and of the purpose thereof by:

1. Posting public notice thereof not less than ten (10) days prior to the date of the first of such hearings along each and every street upon which the property proposed to be reclassified abuts. In case a majority of the property proposed to be reclassified has been subdivided into parcels of one (1) acre or less in area, such notices shall be placed not more than five hundred (500) feet apart and such posting shall extend along said street or streets a distance of not less than five hundred (500) feet from the exterior limits of such properties as are proposed for reclassification. In the case of all other property proposed to be reclassified such notices shall be placed not more than one (1) mile apart. Each such notice shall consist of the words "Notice of proposed zoning change" printed in plain type with letters not less than one (1) inch in height, and in addition thereto a statement in small type setting forth a general description of the property involved in the proposed change of district, the time and place at which the public hearings on the proposed change will be held and any other information which the Planning Commission may deem to be necessary; and by

2. Mailing a postal card notice not less than ten days prior to the date of the first of such hearings to the owners of all property within the posting area above defined, using for this purpose the last known name and address of such owners as shown upon the records of the Assessor of the County.

Any failure to post public notices or to mail postal card notices as aforesaid shall not invalidate any proceeding for amendment of any zoning ordinance.

Following the aforesaid hearings the Planning Commission shall make a report of its findings and recommendations with respect to the proposed amendment and shall file with the Board of Supervisors an attested copy of each report with ninety (90) days after the date of the meeting at which said Commission set the times and places for said hearings. Failure of the Planning Commission so to report within said ninety (90) days shall be deemed to be approval of the proposed amendment by the Planning Commission.

Upon receipt of such report from the Planning Commission, or upon the expiration of such ninety (90) days as aforesaid, the Board of Supervisors shall set the matter for public hearing after notice thereof and of the proposed amendment, given as provided by law.
After the conclusion of such hearing the Board of Supervisors may adopt the amendment or any thereof set forth in the petition or in the resolution of intention in such form as said Board may deem to be advisable.

The decision of the Board of Supervisors shall be rendered within sixty (60) days after the receipt of a report and recommendations from the Planning Commission or after the expiration of such ninety (90) days, as aforesaid.

Upon the consent of the Planning Commission any petition for an amendment may be withdrawn upon the written application of a majority of all the persons who signed such petition. The Board of Supervisors or the Planning Commission, as the case may be, may be resolution, abandon any proceedings for an amendment initiated by its own resolution of intention, provided that such abandonment may be made only when such proceedings are before such body for consideration and provided that any hearing of which public notice has been given shall be held.

SECTION 11. FORM OF PETITIONS, APPLICATIONS AND APPEALS

The Planning Commission shall in its rules prescribe the form and scope of all petitions, applications and appeals provided for in this ordinance, and of accompanying data to be furnished so as to assure the fullest practicable presentation of facts for proper consideration of the matter involved in each case and for a permanent record. Any petition for an adjustment or variance as provided in Section 8 of this ordinance, or for a use permit as provided in Section 9 of this ordinance, or for an amendment as provided in Section 10 of this ordinance, shall include a verification by at least one of the petitioners, attesting to the truth and correctness of all facts and maps presented with said petition. Such verification shall be dated and attested before a notary public or before the County Clerk.

SECTION 12. ENFORCEMENT, LEGAL PROCEDURE, PENALTIES

All departments, officials and public employees of the County which are vested with the duty or authority to issue permits or licenses shall conform to the provisions of all zoning ordinances and shall issue no such permit or license for uses, buildings, or purposes where the same would be in conflict with the provisions of any such ordinance and any such permit or license, if issued in conflict with the provisions of any such ordinance, shall be null and void.

It shall be the duty of the Planning Commission to enforce the provisions of all zoning ordinances pertaining to the erection, construction, reconstruction, moving, conversion, alteration or addition to any building or structure.

It shall be the duty of the Sheriff of the County and of the Officers of the County herein and/or otherwise charged by law with the enforcement of ordinances of the County to enforce all zoning ordinances and all the provisions thereof.

Any person, firm or corporation, whether as principal, agent, employee or otherwise, violating any of the provisions of any zoning ordinance shall be guilty of a misdemeanor, and upon conviction thereof shall be punishable by a fine of not more than Three Hundred (300) Dollars or by imprisonment in the County Jail of the County for a term not exceeding three (3) months or by both such fine and imprisonment. Such person, firm or
corporation shall be deemed to be guilty of a separate offense for each and every day
during any portion of which any violation of any zoning ordinance is committed, continued or
permitted by such person, firm or corporation, and shall be punishable as herein provided.

An building or structure set up, erected, constructed, altered, enlarged, conver-
ted, moved or maintained contrary to the provisions of any zoning ordinance and/or any use
of any land, building or premises conducted, operated or maintained contrary to the provisions
of any zoning ordinance shall be and the same is hereby declared to be unlawful and a public
nuisance and the District Attorney of the County shall, upon order of the Board of Super-
visors, immediately commence action or proceedings for the abatement and removal and enjoin-
ment thereof in the manner provided by law shall take such other steps and shall apply
to such court or courts as may have jurisdiction to grant such relief as will abate and re-
move such building or structure and restrain and enjoin any person, firm or corporation from
setting up, erecting, building, maintaining, or using any such building or structure or
using any property contrary to the provisions of such ordinance.

The remedies provided for herein shall be cumulative and not exclusive.

SECTION 13. INTERPRETATION OF ZONING ORDINANCE

In interpreting and applying the provisions of any zoning ordinance, they shall be
held to the minimum requirements adopted for the promotion of the public health, safety, com-
fort, convenience and general welfare. Except as specifically provided in any such zoning
ordinance, it is not intended by the adoption thereof to repeal, abrogate, annul or in any
way to impair or interfere with any existing provision of law or ordinance, or any rules,
regulations or permits previously adopted or issued, or which shall be adopted or issued
pursuant to law relating to the use of buildings or premises, or relating to the erection,
construction, establishment, moving, alteration or enlargement of any building or improve-
ment; nor is it intended by any such zoning ordinance to interfere with or abrogate or annul
any easement, covenant or other agreement between parties; provided, however, that in cases
in which any zoning ordinance imposes a greater restriction upon the erection, construction,
establishment, moving, alteration or enlargement of buildings or the use of any such building
or premises in said several districts or any of them, than is imposed or required by such
existing provisions of law or ordinance or by such rules, regulations or permits, or by
such easements, covenants or agreements, then in such case the provisions of such ordinance
shall control.

SECTION 14. VALIDITY

If any section, sub-section, sentence, clause or phrase of this ordinance is for
any reason held by a court of competent jurisdiction to be invalid, such decision shall not
affect the validity of the remaining portions of this ordinance. The Board of Supervisors
hereby declares that it would have passed this ordinance and each section, sub-section, sen-
tence, clause and phrase hereof, irrespective of the fact that any one or more sections,
sub-sections, sentences, clauses, or phrases be declared invalid.

SECTION 15. REFERENCE

This ordinance shall be known and cited as the Zoning Procedure Ordinance of the
County of Solano.
SECTION 16. ENACTMENT

This ordinance shall be published once in the Times Herald a newspaper of general circulation in the County of Solano, not less than fifteen (15) days from and after the date of its passage and adoption, and shall take effect thirty (30) days from and after its passage.

The foregoing ordinance was regularly introduced, passed and adopted by the Board of Supervisors of the County of Solano at a regular adjourned meeting of said Board held on the 28th day of January, 1939, by the following vote:

Ayes: Supervisors Foley, Schmeiser and Demmon

Nones: None

Absent: Supervisors Danielson and Born.

Chairman of the Board of Supervisors of the County of Solano, State of California.

Attest: County Clerk and ex-officio Clerk of said Board of Supervisors.
