installation of wires and facilities for supplying electric, communication, or similar, or associated service. The County Clerk shall notify all affected property owners as shown on the last equalized assessment roll and utilities concerned by mail of the time and place of such hearings at least ten (10) days prior to the date thereof. Each such hearing shall be open to the public and may be continued from time to time. At each such hearing, all persons interested shall be given an opportunity to be heard. The decision of the Board of Supervisors shall be final and conclusive.

Section 3 - BOARD OF SUPERVISORS MAY DESIGNATE UNDERGROUND UTILITY DISTRICTS BY RESOLUTION

If, after any such public hearing, the Board of Supervisors finds that the public necessity, health, safety, or welfare, requires such removal and such underground installation within a designated area, the Board of Supervisors shall, by resolution, declare such designated area an Underground Utility District and order such removal and underground installation. Such resolution shall include a description of the area comprising such district and shall fix the time within which such removal and underground installation shall be accomplished and within which affected property owners must be ready to receive underground service. A reasonable time shall be allowed for such removal and underground installation, having due regard for the availability of labor, materials and equipment necessary for such removal and for the installation of such underground facilities as may be occasioned thereby.
