ORDINANCE NO. 108

An ordinance of the town of Kent, providing for the laying, constructing, building, erecting and maintaining of a system of sewers in the said town, and adopting said town, and specifying a plan therefor, declaring the estimated cost thereof, and submitting the same to the qualified voters of the said town for ratification or rejection at a special election called for that purpose.

B.E. IT ORDAINED BY THE COUNCIL OF THE TOWN OF KENT:

Section 1. That the Town of Kent lay, construct, build, erect and thereafter maintain a system of sewers in the said town for the purpose of disposing of the sewage and surplus surface water thereof.

Section 2. That the following system and plan for sewers in the said town is specified and adopted, to wit:

The town shall be and is hereby divided into two sewer districts, that is to say:

Sewer District No.1., which shall include all of that portion of the Town of Kent, lying to the east of the center line of the right of way of the Northern Pacific Railway; and

Sewer District No.2., which shall include all of that portion of the town of Kent lying to the west of the center line of the right of way of the Northern Pacific Railway.

The sewage from said Sewer District No.1, shall be gathered by means of lateral pipes or sewer conduits of sufficient size and number to take care of all of the sewage in the said district, into a main sewer conduit which is described as follows:

Beginning at a point on Smith Street which is about 370 feet east of State Street thence west along said Smith Street to Central Avenue a distance of about 700 feet lay a sewer having a capacity equal to an opening of 8" X 8" on a minimum grade of .26 %., thence south on Central Avenue about 600 feet to Meeker Avenue, lay a sewer having a
capacity equal to an opening 8"X 8" on a minimum grade of .26 %.,
then thence west on Meeker Avenue about 330 feet lay a sewer having a
capacity of an opening 10"X 10" on a minimum grade of .20 %., thence
south on Railroad Avenue about 250 feet to Howe Street lay a sewer
with a capacity equal to an opening 10"X 10" on a minimum grade of .20
per cent., thence continuing south on Railroad Avenue about 430 feet
to titus Street lay a sewer with a capacity equal to and opening 10"X
12" on a minimum grade of .18 %.

At or near the last described point locate a receptacle or reservoir
and pumping station with an electrically driven centrifugal pump for
raising the sewage from the level of the opening of the above de-
scribed main sewer to the level of the intake of the hereinafter
described main trunk sewer.

The said main trunk sewer shall be located and is described as
follows:

Beginning at or near the intersection of Titus Street and Rail-
road Avenue lay a sewer along said Titus Street westerly about 1280
feet, having a capacity equal to an opening 14"X 16" with a minimum
grade of .14 %., reaching to Fourth Avenue, thence south along Fourth
Avenue to Willis Street a distance of about 725 feet lay a sewer
having a capacity equal to an opening 16"X 16" with a minimum grade
of .12 %., thence west on Willis Street to Fifth Avenue a distance of
325 feet lay a sewer having a capacity equal to an opening 16"X 16" with
a minimum grade of .11 %., thence continuing along Willis Street
and Willis Street produced a distance of about 2240 feet lay a sewer
having a capacity equal to an opening 16"X20", with a minimum grade of
.09 %, to a point on the bank of the White River which is about 1430
feet southwesterly from the intersection Willis and Naden Streets.

For the drainage of sewage from said Sewer District No.2, lateral
sewer conduits of sufficient size and number shall be connected with
and empty into the said main trunk sewer to carry off all of the
from the said Sewer District No. 2.

There shall be provided at all angles where necessary, manholes for cleaning the sewer pipes, lamp holes and handflushing shafts, also eight automatic flush tanks to be so located as to furnish the best service for the entire system.

All of the said sewer conduits, and all manholes, lamp holes, and flush tanks and shafts shall be made of Fir planks, which shall in all cases be surfaced on one side so as to remove projections from the inside of the said conduits, and manholes.

Planks used for conduits have dimensions greater than 12" inside measurement shall be three inches in thickness, all others shall be 2" in thickness.

Catch Basins for surface drainage shall be established at such points as shall furnish the necessary drainage to the town in general, consistent with the successful operation of the system for sewerage purposes.

Section 3. The estimated cost of the said system of sewers is declared to be Seventeen Thousand Dollars.

Section 4. This ordinance shall be submitted to the qualified voters of the Town of Kent, for ratification or rejection at a special election to be held in said town at the town hall therein, on the 10th day of October A.D. 1906, which election is hereby called and authorized and which shall be conducted under and according to the provisions of the general election laws of the State of Washington.

The ballots used at said election shall contain the words:

"Shall the Town of Kent lay, construct, build, erect and maintain a system of sewers at an estimated cost of Seventeen Thousand Dollars, according to the plan and system adopted in ordinance No. 68, of the said town, entitled "An ordinance of the Town of Kent, providing for the laying, constructing, building, erecting and maintaining of a system of sewers in the said town, and specifying and adopting a plan therefor, declaring the estimated cost thereof, and submitting the same to the
qualified voters of said town for ratification or rejection at a special election called for that purpose.

For said Sewer System. (☐)
Against said Sewer System. (☐).

The voter at such election shall prepare his ballot by placing a cross in the square following the words "For said Sewer System" if he desires to vote in favor of its ratification; and by placing a cross in the square following the words "Against said Sewer System" if he desires to oppose its ratification.

Section 5. Notice of said election shall be published in the White River Journal, the same being the newspaper in which the Town Printing is done, for the time and in accordance with the provisions of the laws of the State of Washington.

Section 6. The following officers are hereby appointed to conduct the said election:

E. A. Rockwell, Inspector.
Geo. Wood
J. C. Richmond, Judges.

Section 7. The council of the said town of Kent, shall meet in the council chamber of the Town Hall on Monday evening October 15th, 1906 at the hour of 8 o’clock P.M., for the purpose of canvassing the returns and declaring the result of the said election.

Section 8. This ordinance shall take effect and be in force from and after its passage, approval and publication.

Passed Sept. 17th, 1906.
Approved Sept. 17th, 1906.

Attest: O. O. Cornelius
Town Clerk.
