AN ORDINANCE of the City Council of the City of Kent, Washington adopting the 2008 Water System Plan.

RECITALS

A. The City’s comprehensive Water System Plan, when integrated into the City’s Comprehensive Plan, will serve as the City’s blueprint for long-range acquisition, storage, and delivery of potable water to meet the fire, life safety, and commercial/industrial demands of the City water customers. The Washington State Department of Health requires an update of the City’s Water System Plan every six (6) years, and the last adopted update was published in 2002.

B. On June 5, 2008, the City provided the State of Washington with the required sixty (60) day notification under RCW 36.70A.106 of the City’s proposed adoption of the 2008 Water System Plan and corresponding amendment to the Capital Facilities Element of the Comprehensive Plan.

The SEPA Addendum explained that the proposed Water System Plan would not create unavoidable impacts beyond those previously identified in the EIS.

D. The City Council’s Public Works Committee analyzed the development of the Water System Plan at its meetings on June 16, 2008; July 7 and 21, 2008; and August 4 and 18, 2008. Development of the Water System Plan and the public involvement process continued with Land Use and Planning Board workshops on June 9 and July 14, 2008, and a public hearing on July 28, 2008. Adoption of the Water System Plan and the adoption of the corresponding amendments to the Capital Facilities Element of the Comprehensive Plan were also considered by the City Council’s Planning and Economic Development Committee on August 11, 2008. On September 2, 2008, the City Council adopted the Water System Plan for the City of Kent.
