Ordinance No. 40

Amending Ord. 23

An ordinance amending ordinance No. X.111 entitled an ordinance to provide for the uniform width and material of wooden sidewalks to be built in the town of Kent.

Amended by Ord. 146

Be it ordained by the Council of the Town of Kent:

Section I. That all sidewalks on Race Road Avenue, and First Street in the Town of Kent shall be eight and one-half feet wide, and sidewalks upon all other streets shall be six (6) feet wide.

Repealed by Ord. 2005

Section II. That said sidewalks shall be constructed of fir and cedar lumber in the following manner: The planking of the sidewalk shall be of fir lumber not less than one
and one half (1½) inches in thickness securely spiked with nails not less than (½) inch in length to three (3) feet. Longitudinal stringers, which shall be two (2) inches thick by six (6) inches wide placed on edge, which said stringers shall rest upon a cedar mud-sill six (6) inches wide and four inches thick running the entire width of the side wall, placed ten (10) feet apart.

The stringers shall be placed one at the outer edge, one at the inner edge and the other as near the center of said planking side wall as may be. The planking shall be securely nailed flush with each outside stringer. If extra blocking is required to support the stringers or mud-sills, all blocking resting upon the ground shall be of cedar.

The elevation of the outer edge...
of the sidewalk, when laid, shall be
different in height, with the center of the street-
when graded, and the elevation of
the inner edge of the sidewalk shall
be two (2) inches higher than the outer
edge of the same.

Section 111. Cross walks shall be
constructed at each street crossing
extending to within six (6) feet
of the ends of each side walk by
placing on the surface of the street
cedar pills 4" x 4" x 6' croiswise of the
walk and not more than six (6)
feet apart; first charring the
upper sides of the pills at the
ends for a distance back of one
foot, to a wedge shape and
then spiking to these pills planks
3" x 12" to within six (6) feet of the
ends of the side walk, using two (2)
six (6) inch spikes at each crossing of
a pill and plank.
Section IV. The cross walks and side walks shall be connected by an inclined plane constructed for planting 2" x 12" x 6' securely spiked to cedar posts and thereby making a continuous walk of even surface.

Section V. This ordinance shall take effect and be in force from and after its passage and publication.

Passed June 26, 1891

Approved June 29, 1891
