Ordinance No. 67

An ordinance to prevent fires, and to fix and establish a regulation or standard for fire and prohibiting the use of stove-pipes within certain limits.

Sec. 1. There shall be, and is hereby established, within the limits of the Town of Kent, a regulation or standard for fire, and prohibiting the use of stove-pipes within the limits of the Town of Kent, and shall be constructed either entirely of brick or stone, or shall be of either cement or terra-cotta, and when of cement or terra-cotta, said flue shall connect directly with the chimney or furnace, or be built into a stand or chimney to which shall be laid four courses of brick, laid either cement or first-class mortar. The opening of the flue shall be at least, eighteen inches from the ceiling of the building wherein constructed, and said flue so constructed shall project at least two and one half feet from the edge of the building where placed.

Sec. 2. It shall be unlawful for the owner or occupant of any building within the limits of the Town of Kent, that is situated within the limits of the Town of Kent, to place, or cause to be placed, any stove-pipe through any side wall partition, ceiling or roof of any such building.

Sec. 3. Any person violating this ordinance shall upon conviction be fined in any sum not less than five dollars nor more than twenty, or be imprisoned not more than sixty days or both.
Section 5. This ordinance shall take effect and be in force thirty days from and after its passage and publication.

Passed June 2nd, 1890.
Approved June 2nd, 1890.
